

# An introduction to the Management of Health & Safety within the Live Events industry: 1 Day

## Who should attend this course?

This course should be attended by employees that need a broad overview of Health and Safety legislation and the issues to be considered when either undertaking the work activity in your place of work, or hosting live events.

From hazard identification, risk assessment to basic safety management, the course also includes guidance on the selection and management of contractors to ensure safe working. After the completion of this course you should be able to identify hazards that might be encountered in your workplace and at live events.

This full day course includes the common aspects or areas which are often overlooked or misunderstood on an event site.

## Areas covered

- The UK Legal System, Who has duties under Health and Safety Law
- The Health and Safety at Work Act 1974 (HASAWA)
- HSG65 use and application SMART Goals
- Risk Assessments and Method Statements (RAMS)
- Event guidance use and application
- Design Brief & Awareness / duties and responsibilities
- Q&A for each element with a group discussion
