

# An introduction to the Management of Health & Safety within the Live Events industry: 2 Days

## Who should attend this course?

This course should be attended by employees who have already undertaken the introduction to the Management of Health & Safety within the Live Events industry 1 Day course.

The course will begin with a refresher to the 1 Day course and cover a variety of significant topics that those involved with event management will come into contact with, as listed by the areas covered below.

The second day finishes with a 1 hour exam which means you will be able to benchmark the performance of your staff and get an understanding of those who may need additional training.
